

Entertaining Students Off Campus during COVID-19

In previous years, faculty and staff have been encouraged to entertain students in their homes in an effort to build community through support mechanisms such as the Bingham Entertainment Fund. As we are all aware, however, this year is not “business as usual.” As such, faculty and staff should **not** host students in their homes or other venues off campus unless they are approved to do so through the College’s [Policy on College-Sponsored On-Campus Events](#) or the [Policy on College-Sponsored Off-Campus Events and Activities](#). Please note that this guidance applies to all faculty and staff, including those employees who have children or family members designated as on-campus students. Thank you in advance for your compliance with this strict but necessary request.

For questions, please consult your member of the Administrative Committee.
